Education

Vellore Institute of Technology , B.Tech in CSE (Specialization in Cloud Computing) CGPA: 8.65	Sept 2022 – June 2026
Modern Delhi Public School , Senior Secondary School CGPA: 8.70	Apr 2020 – Apr 2022
Modern Public School , Secondary School CGPA: 9.10	Apr 2018 – Apr 2020

Experience

Software Engineer Intern Hyphen SCS, Noida	May 2024 – Jul 2024
- Contributed to the "VibeSync" web application using React.js and Node.js, collaborating with cross-functional teams to develop dynamic user-facing features that curate personalized motivational media. - Conducted data analysis to develop an interactive dashboard with comprehensive demographic and professional filtering, successfully streamlining operations and increasing throughput by 40%. - Implemented a highly responsive UI featuring real-time randomized media generation and an intuitive like/dislike feedback loop, optimizing content relevance and boosting user retention by 30%.	

Projects

PrepWise	Link
- Built a full-stack Gen AI interview platform using Next.js, TypeScript, and LLM APIs, architecting a robust frontend-backend framework for seamless user interaction. - Designed and tested REST API endpoints to handle contextual data for Large Language Models, ensuring reliable data ingestion and low-latency responses for the AI engine. - Engineered real-time conversational AI workflows using Voice AI (Vapi), optimizing prompt templates and verifying dynamic, LLM-driven question generation logic.	
Cognitive Attendance	Link
- Developed an AI-powered biometric attendance automation system using Python (Flask) and OpenCV, optimizing Computer Vision algorithms to achieve high accuracy and performance stability. - Built and validated robust APIs for real-time inference data logging, implementing safeguards against duplicate entries from continuous AI video frame processing. - Fine-tuned facial recognition parameters to mitigate edge cases like low lighting, significantly improving the AI system's reliability in diverse real-world scenarios.	

Achievements and Activities

- ZS Associates Hackathon**: Secured 11th place nationally as part of a top-performing team.
- Smart India Hackathon '25**: Secured a spot in the second round of the Inter College Smart India Hackathon.

Skills

Languages: Python, TypeScript, JavaScript, Java, SQL, HTML, CSS
AI/ML Technologies: Large Language Models (LLMs), Generative AI (Gen AI), Prompt Engineering, Voice AI (Vapi), Computer Vision (OpenCV)
Frameworks/Tools: React.js, Node.js, Next.js, Flask, MongoDB, MySQL, Git, REST APIs, Postman
Core Competencies: Data Structures & Algorithms (DSA), Analytical Problem-Solving, Cloud Computing

Certifications

Python Essentials, Artificial Intelligence & Machine Learning Essentials, DevOps Fundamentals, AWS Solutions Architect, HTML, CSS, JavaScript
