Professional Summary

Results-driven B.Tech **Computer Science** student specializing in **Cloud Computing** and an **AWS Certified Solutions Architect (Associate)**. Ranked **11th nationally in the ZS Associates Hackathon**, demonstrating elite technical analytical and troubleshooting aptitude. Passionate about bridging the gap between engineering and user success through **customer empathy, diagnostic precision, and clear technical communication**. Seeking to leverage deep cloud expertise to provide world-class technical support for Clazar's cloud-native platform.

Education

Vellore Institute of Technology , B.Tech in CSE (Specialization in Cloud Computing) CGPA: 8.57 (<i>CSE Branch Applicant</i>)	Sept 2022 – June 2026
Modern Delhi Public School , Senior Secondary School CGPA: 8.70	Apr 2020 – Apr 2022
Modern Public School , Secondary School CGPA: 9.10	Apr 2018 – Apr 2020

Core Skills

Cloud & Support: AWS Certified Solutions Architect, SaaS Customer Success, Technical Troubleshooting, Root Cause Analysis, API Support (REST), CRM Integration (Salesforce/HubSpot).

Programming & Technical: Python (Pandas/NumPy), JavaScript, TypeScript, SQL, Java, React.js, Next.js, Node.js, Flask, HTML/CSS, Git Version Control.

Professional Aptitude: Strategic Problem-Solving, Technical Documentation, Stakeholder Management, User Behavioral Analytics, Public Speaking, High-Stress Issue Resolution.

Experience

Product Solutions & Analytics Intern Hyphen SCS, Noida	May 2024 – Jul 2024
Customer Success & Bridge Role: Acted as the primary interface between engineering teams and end-users for the "VibeSync" application, translating user friction into actionable technical feature tickets. Issue Resolution & Workflow Optimization: Designed an interactive analytics dashboard for stakeholders, simplifying complex reporting workflows and reducing user query resolution time by 40%. Product Reliability: Leveraged behavioral analytics and React.js to identify performance bottlenecks, resulting in a 30% boost in user retention and improved reliability metrics.	

Projects

PrepWise (AI-Driven Technical Support Platform)	Link
Troubleshooting & User Onboarding: Led the development of an AI-driven tool where I managed the user experience roadmap, proactively identifying and automating solutions for potential technical edge cases. Product Stability: Ensured seamless high-performance delivery through rigorous user-centric testing and diagnostic iterations across cross-platform environments.	
Cognitive Attendance (Operational Automation)	Link
Automation & UX Optimization: Designed and implemented an automated resource management system using computer vision to modernize administrative workflows, reducing users' manual effort and eliminating human error. Diagnostic Performance: Focused on providing real-time data accuracy and clear reporting metrics, enhancing organizational transparency and technical reliability.	

Achievements & Certifications

- National Rank 11 — ZS Associates Hackathon:** Outperformed 50,000+ candidates in solving high-complexity diagnostic and strategic case studies.
- AWS Solutions Architect Associate:** Certified in designing and troubleshooting scalable, enterprise-grade cloud solutions—directly applicable to Clazar's cloud marketplace focus.
- Smart India Hackathon '25 Qualifier:** Selected for national-level competition for innovative technical problem-solving.
- Certifications:** Python Essentials, DevOps Fundamentals, HTML/CSS/JS Professional Certification.
