Professional Summary

Highly motivated B.Tech student and **AWS Certified Solutions Architect** with a strong technical background and a "Seeker Mindset" for process optimization. Proven expertise in **project scope understanding**, **resource alignment**, and **talent data analysis**. Demonstrates "Extreme Ownership" and proactive communication skills to bridge complex project requirements with strategic talent allocation and demand forecasting.

Education

Vellore Institute of Technology , B.Tech in CSE (Cloud Computing) CGPA: 8.57	Sept 2022 – June 2026
Modern Delhi Public School , Senior Secondary School Percentage: 87.0%	Apr 2020 – Apr 2022

Experience

Software Engineer Intern Hyphen SCS, Noida	May 2024 – Jul 2024
Resource Optimization: Streamlined workflows through automated reporting, reducing manual data processing by 40% and enhancing team resource planning efficiency. Stakeholder Collaboration: Conducted technical data analysis to ensure project milestones met strategic requirements and stakeholder expectations for the "VibeSync" application. Ownership Ambition: Managed complex technical tasks in Agile environments, demonstrating rapid concept comprehension and a proactive response to system stability challenges. Communication: Facilitated cross-functional alignment through clear documentation and proactive email interaction, ensuring project scope was understood by all technical teams.	

Projects

PrepWise (Strategic Talent Platform)	Link
- Developed an AI-driven interview preparation platform, focusing on Project Scope Understanding to align system outputs with professional performance standards. - Leveraged analytical skills to debug real-time workflows, verifying and optimizing logic for 100+ simulated users to ensure service reliability.	
Cognitive Attendance (Resource Tracking System)	Link
- Engineered a biometric tracking system integrating local hardware with cloud databases, providing a foundation for automated talent data analysis and trend forecasting. - Improved system accuracy for edge cases through structured testing and data validation, demonstrating a high degree of ownership over project reliability.	

Skills

Foundational: Demand Forecasting, Resource Planning, Talent Mapping, Project Management, Stakeholder Engagement, Technical Communication, Cross-Functional Collaboration.

Analytical Tools: Power BI, SQL, Python (Automation), Git, Postman (API Analysis), AWS Cloud, MongoDB.

Core Strengths: Extreme Ownership, Seeker Mindset, Proactive Response, Quick Learning.

Achievements Certifications

- ZS Associates Hackathon:** Secured **Rank 11** nationally among 50,000+ participants—demonstrating extreme ambition and analytical problem-solving.
- AWS Solutions Architect:** Credentials proving a strong technical background to grasp complex project needs quickly.
- Smart India Hackathon '25:** Recognized for collaborative effort and technical excellence in high-stakes competition.
- Technical Certifications:** Python Essentials, DevOps Fundamentals, AI/ML Essentials.
